Dear Mr. Miller,

I am extremely interested in joining your marketing team as the camera operator. I am a graduate of the University of the West Indies, Cave Hill Campus who completed a Bachelor of Science in Computer Science and Management earning Upper Second-Class Honors.

Through my Computer Science studies, I have become an eager, computer and technology-savvy individual who has great skills and sound education in the technological arena. I also majored in Management, greatly enhancing my leadership, accounting and operating skills, making me an additional asset to any business' accounting or management division. Furthermore, I enhanced my web design skills in the Caribbean Science Foundation's Coding Workshop.

Should I be granted this position, I would be a very dedicated and focused employee for Centennial College; endeavoring always to ensure that the organization's goals are realized. With my skill set and educational experience, I am confident that I can be a valuable member of your organization. I can be contacted for an interview at your convenience. Please find my Curriculum Vitae attached and do not hesitate to contact me should you require any further information.

Thank you for your consideration.

Sincerely,
Shermar Pinder
